

PETITION TO THE MADISON COUNTY BOARD OF SUPERVISORS

REQUESTING AN IMMEDIATE AMENDMENT TO THE COUNTY COMPREHENSIVE PLAN TO DESIGNATE CORRIDORS FOR ELECTRIC TRANSMISSION LINES OF 150,000 VOLTS OR MORE

We, the undersigned residents of Madison County, hereby request that the Madison County Board of Supervisors amend the county Comprehensive Plan to designate corridors or routes for electric transmission lines of 150 kilovolts or more in accord with state statute §15.2-2223(C)(8). The Commonwealth has expressly authorized the County to exercise the power to control the placement and path of these intrusive industrial transmission lines and facilities. We demand that these industrial transmission lines be placed in areas zoned for industrial, commercial, or business use, not placed in residential or agricultural areas. We object to Dominion Virginia Power's attempt to place 230,000 volt transmission lines on properties of Dominion's choosing. We request that the comprehensive plan amendment be executed immediately to control the placement of transmission lines in the proposed Dominion project and all future utility projects authorized by §15.2-2223(C)(8).

PETITION TO THE MADISON COUNTY BOARD OF SUPERVISORS

REQUESTING AN IMMEDIATE AMENDMENT TO THE COUNTY COMPREHENSIVE PLAN TO DESIGNATE CORRIDORS FOR ELECTRIC TRANSMISSION LINES OF 150,000 VOLTS OR MORE

We, the undersigned residents of Madison County, hereby request that the Madison County Board of Supervisors amend the county Comprehensive Plan to designate corridors or routes for electric transmission lines of 150 kilovolts or more in accord with state statute §15.2-2223(C)(8). The Commonwealth has expressly authorized the County to exercise the power to control the placement and path of these intrusive industrial transmission lines and facilities. We demand that these industrial transmission lines be placed in areas zoned for industrial, commercial, or business use, not placed in residential or agricultural areas. We object to Dominion Virginia Power's attempt to place 230,000 volt transmission lines on properties of Dominion's choosing. We request that the comprehensive plan amendment be executed immediately to control the placement of transmission lines in the proposed Dominion project and all future utility projects authorized by §15.2-2223(C)(8).

We demand that these industrial transmission lines be placed in areas zoned for industrial, commercial, or business use, not placed in residential or agricultural areas. We object to Dominion Virginia Power's attempt to place 230,000 volt transmission lines on properties of Dominion's choosing. We request that the comprehensive plan amendment be executed immediately to control the placement of transmission lines in the proposed Dominion project and all future utility projects authorized by §15.2-2223(C)(8).
